IB learner profile

- The IB learner profile is the IB mission statement translated into a set of learning outcomes for the 21st century.
- As IB learners we strive to be:
  - inquirers
  - knowledgeable
  - thinkers
  - communicators
  - principled
  - open-minded
  - caring
  - risk-takers
  - balanced
  - reflective
Agenda

- What makes the IB experience unique?
- Course Options - building and making sense of the two-year sequence of classes
- Frequently Asked Questions
Why the RVC school district chose the IB Program...

We know it is the best program for college and career preparedness.

Why do we believe that?

- Strong liberal arts foundation
- Allows for student choice
- Emphasis on inquiry and critical thinking
- Authentic learning experiences
- Encourages independence
- Builds awareness of local, national and global issues
- Diploma requires multilingualism
- Variety of assessment modes
- Emphasis on writing over multiple choice
- Not just about the academics
National Association of Colleges and Employers (NACE) conducts a yearly survey of hiring managers to determine what skills and abilities employees most value (beyond a strong GPA):

1. Problem-solving / Critical thinking skills
2. Ability to work in a team
3. Strong work ethic
4. Analytic / Quantitative skills
5. Communication skills - Written
6. Leadership
7. Communication skills – Oral
8. Initiative
9. Detail-oriented
10. Technical skills
11. Flexibility / Adaptability

The IB is an inclusive program at South Side. Any student is welcome to pursue IB coursework or the full IB diploma, provided they have the right mix of classes.
Ways to participate in the IB program...

- **IB Diploma Candidate**
  - 6 IB courses – one or two years in length
  - Participation in 3 central elements – CAS, Extended Essay, and Theory of Knowledge

- **IB Course Candidate**
  - Individual IB courses – ranges from one course to five

Strong liberal arts foundation and allows for student choice
Inquiry, Critical Thinking, Authenticity

➢ Going beyond simple memorization and recall. Students must engage in inquiry and critical thinking.

Example(s): Students create their own research question for individual exploration in a variety of subjects...

Math Internal Assessment – “Can a back bend in gymnastics be modeled using quadratics?”
“How do you graph harmonics and dissonance using trigonometry?”

Music Extended Essay – “Can a soundtrack from a video game or movie be considered ‘classical’?”

English Extended Essay – “How does the predator-prey motif reflect gender dynamics in Margaret Atwood’s *The Edible Woman*?”
Inquiry, Critical Thinking, Authenticity

➢ Students analyze and respond to realistic/real-world scenarios and case studies.

Example: On written assessments, students are asked to apply their knowledge of theory and methodology to given scenarios.

Business Management Paper 1 – *Afghan Sun* Case Study

*Sample exam questions:*

- Describe the advantages of using a cash-flow forecast, based on a given table.
- Explain the difference between leadership and management, with reference to Su and her managers.
- Explain the factors Su may consider when deciding between two given locations for the production facility.
- Discuss the value to Su of a force field analysis in deciding whether to grow through change.
Inquiry, Critical Thinking, Authenticity

- Practice, not just theory
  - Exhibition of artistic pieces in IB Visual Arts
  - Collaborative creation and presentation of an original 13-15 minute theater piece in IB Theatre
  - Original composition as well as performance of musical pieces in IB Music

- Collection and extraction of DNA at Dolan DNA Learning Center; comparison of genome sequence to the Neanderthal and other ancient hominids.
The International Baccalaureate uses *multiple assessment methods* to measure student achievement in all its courses.

The guiding philosophy is to give students an opportunity to demonstrate what they know, rather than focus on what they don't know.
Assessment

- Internal and external assessments, using established grading criteria
- Varied skills tested across disciplines
- Balance between independent and teacher-supervised work
- Students maintain control over many aspects of assessment
**Consistent Writing Practice**

**Writing Across the Curriculum**
- Spanish/French – writing (ex: letter, brochure, news article) in response to a given scenario
- Music – writing to critically reflect on the process of creating and experiencing music
- Physics – written investigation based on a student-generated research question

**Emphasis on the Process Model**
- Proposal → Draft → Feedback and Revision → Submission
- Supports: In-class workshopping, peer editing, teacher feedback throughout all steps of the process, etc.
Extended Essay

- A formal research paper investigating a topic of special interest
- Research question or hypothesis created by the student
- Related to an IB subject
- Develops the kind of independent authentic research and writing skills expected at the college level

- An Analysis of Social Influence on American Fashion Trends Between the 1930s and the 1980s
- A comparison of *The Yellow Birds* and *All Quiet on the Western Front*
- *Ataturk's Influence on Westernizing Turkey*
To meet the IB Diploma Requirements, students must:

- take 3 higher level (HL) and 3 standard level (SL) courses from each of 6 core curriculum groups
  - HLs = 2 years of study (completed in Senior Year)
  - SLs = 1-2 years of study (two SLs can be completed in Junior Year – Math Analysis, Physics)

- accumulate 24 points; each course is graded on a scale of 1 to 7

- higher grades in one course may be used to make up for lower grades in another course, provided that the total points is 24+

From the National Association for College Admissions Counseling - State of College Admission, 2019:

Factors seen as “considerably important” in the admission decision include:

- Grades in all courses
- Grades in college prep courses
- Strength of curriculum
- Admission test scores (SAT, ACT)

Next most important factors include:

- Essay or writing sample
- Student’s demonstrated interests

TOK plays a key role in making this happen.

The IB Diploma Program is meant to be:

- Broad
- Balanced
- Conceptual
- Connected

TOK Exhibition

TOK Essay
Consider these TOK Essay prompts:

- When mathematicians, historians and scientists say that they have explained something, are they using the word ‘explain’ in the same way?
- Can literature “tell the truth” better than other Areas of Knowledge?
- “Without application in the world, the value of knowledge is greatly diminished.” Consider this claim with respect to two Areas of Knowledge.
